

### PRODUCT No. 3159

#### Entrance cleaning mat – Fingertip 0,6 x 0,8 m

(Illustrative photograph)

#### Technical data

Material	Rubber (NBR)
Weight	3 kg
Color	Black
Surface (pattern)	„Fingertips“
Operating temperatures	- 20°C / +160°C
Width	600 mm
Length	800 mm
Height	16 mm

#### Attributes

- Made of natural UV stabilized rubber (NBR).
- Typical rubber mat for catching dirt from footwear.
- Thousands of tiny „fingers“ scratch dirt from footwear thus protects against its carrying in a building.
- Fingers catch dust and the dirt can be easily shaken out or cleaned by turning over.
- All types and sizes have safely angled edges.
- Anti-skid opposite side prevents the mat from moving around.
- Suitable for every season – mud, snow, frost.

#### Color variations

- Black.

#### Product purpose

- Designed as a standard mat for exterior places.

#### Additions

- Possible to be ordered in two standard sizes 0,6 x 0,8 m and 0,8 x 1 m.
