

PRODUCT No. 3589

Rack with inclined shelves – base rack

(Illustrative photograph)

Technical data

Material	Steel sheet
Surface finishing	Galvanized
Shelf capacity	200 kg
No. of shelves	4x
Width	1300 mm
Depth	1200 mm
Height	2000 mm

Attributes

- Made of galvanized steel sheet.
- Equipped with inclined smooth shelves – 18° slope (automatic movement of the boxes).
- Shelves can be adjusted by 25 mm, shelf load capacity – 200 kg.
- Raised side plates prevent boxes to fall out.
- Low front stopper edge makes the boxes taking out easier.
- Suitable for storage in FIFO system – to store from behind, taking away from the front.
- Large-area shelves suitable mainly for bigger boxes.

Product purpose

- Designed for storing and dispensing of goods in covered warehouses.

Additions

- Additional extension rack can be ordered – type 3590.

BASE RACK
