

### PRODUCT No. 7202

#### Medical waste container – 60 l (without UN)

(Illustrative photograph)

#### Technical data

Material	Polypropylene (PP)
Capacity	60 l
Weight	1,90 kg
Max. weight of content	30 kg
Width (bottom/top)	319 / 393 mm
Depth (bottom/top)	274 / 342 mm
Height	620 mm

#### Attributes

- Made of highly resistant plastic polypropylene (PP).
- Possibility of preliminary or permanent closing of the lid – equipped with lid with a handle in the middle.
- The lid is equipped with adhesive.
- Optimal space utilization due to rectangular shape.
- Space saving during transport and storage (conical and stackable design).
- Bins are suitable for combustion.

#### Color variations

- Standardly black.

#### Product purpose

- Designed as an economical solution for disposal of infectious waste for operations (hospitals) with its own incinerator.

#### Additions

- Not certified (without UN code) for collecting and transporting dangerous substances.
