

PRODUCT No. 7361/160

Horizontal cutting stand – two windings – 1600 mm

(Illustrative photograph)

### Technical data

Material	Steel
Weight	58 kg
Max. working width	1600 mm
Max. winding diameter	900 mm
Max. weight	80 kg
Width	2000 mm
Depth	950 mm
Height	1500 mm

### Attributes

- The packing material holder and cutting bracket ensures easy and accurate cutting of the required packing material size.
- The cutting stands come with an universal blade knife that can be used for cutting without interchangeability.
- Equipped with two galvanized support bars – for two rolls.
- Applicable in packing and export centres – corrugated cardboard, wrapping paper, PE foil, bubble foil, etc.
- Designed for rolls with length of 1600 mm with maximum weight of 80 kg.

### Color variations

- Black – red.

### Product purpose

- Designed for unwinding and cutting of packaging materials.

### Additions

- Versions of cutting stands for lengths of 750 and 1000 mm are not equipped with a handle for manipulating the knife bracket.
