

### PRODUCT No. 6398-2

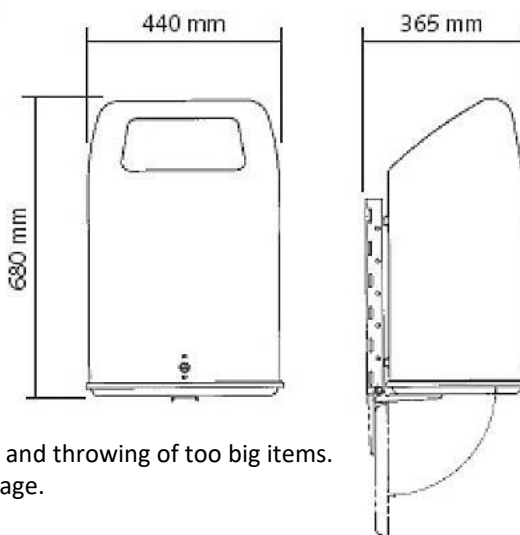

Exterior waste bin with lower dumping with lock / without column – green

(Illustrative photograph)

#### Technical data

Material	Steel
Capacity	70 l
Weight	15 kg
Width	440 mm
Depth	365 mm
Height	680 mm

#### Attributes

- Made of hot-dip galvanized steel sheet.
- The shape and location of opening ensures protection against rainwater and throwing of too big items.
- Tipping bottom allows easy emptying without manual contact with garbage.
- Lower lid opens by universal lock.
- Surface finishing is made by varnishing – ensures long service life.
- Due to robust design, it is suitable for urban areas where is risk of vandalism.

#### Color variations

- Standardly green (RAL 6005).

#### Product purpose

- Designed for collecting of common waste.

#### Additions

- The bin can be placed in the open area if the area is sheltered and at least partially protected from weather conditions.
- Attaching on the column is done using motex strips or connecting material, which is not part of delivery.
- Column can be ordered – type 6999.
