

**Pallet truck with electric lifting and travel**  
**TYPE: 8440**

Illustrational photograph

### TECHNICAL DATA

Material (Wheels)	Polyurethane
Operating weight	123 kg
Truck load capacity	1500 kg
Lift height	115 mm
Min. height of lifted fork	80 mm
Forks length	1150 mm
Fork dimensions	47/160/1150 mm
Forks width/total width	540/540 mm
Total length	1530 mm
Battery (voltage/capacity)	Li-ion 24V/30/36Ah
Drive/control	Electric/manual
Dimensions of the front wheel	210 x 70 mm
Dimensions of rear wheels	80 x 70 mm

### ATTRIBUTES

- Versatile pallet truck with electric lift and travel for handling loads which weights up to 1500 kg.
- The truck is light, easy to handle – weight only 123 kg.
- Equipped with a button to reduce the speed and with an electromagnetic brake.
- Simple and clear operation thanks to the size of the buttons, even if protective gloves are worn.
- Equipped with a lithium-ion battery, which is characterized by high performance, short charging time and service life.
- An external charger (included in the delivery) enables fast continuous charging.
- There is no need to remove the battery from the truck when charging.
- Steering motor with a nominal power of 0,65 kW and lifting motor with a nominal power of 0,5 kW.
- The truck achieves a sound level of <70 dB(A) according to the EN 12053 standard.

### PRODUCT PURPOSE

Product is designed as a low-lift pallet truck for transporting a large number of pallets.

### ADDITIONS

Supplied with an external charger.
