TECHNICAL DATA

| | |
|------------------------|--------------------|
| Material | Plastic (Durapol™) |
| Capacity | 160 l (4x 40 l) |
| Weight | 16 kg |
| Dimensions (L x W x H) | 956 x 430 x 851 mm |

ATTRIBUTES

- Opening panels can be attached to the body and opened by opening the entire panel, each lid separately or by hinged flaps.
- The stop function of the lid keeps panels upright for easy access to bag fixation.
- Narrow base to save space and symmetrical design offering access from all sides.
- Personalized stickers can be added to the front and back of the bin.
- Available capacity is 160 l in four 40 l opening panels.
- Attached or freely hinged opening panels.
- Bag fixing system with a rubber cord.
- It is equipped with a hinged lid with a lid holder.

PRODUCT PURPOSE

Product is designed as an outdoor waste bin for collection of sorted waste.
