

PRODUCT No. 4785

Waste bin for oily, flammable waste – 20 l

(Illustration photograph)

Technical data

Material	Galvanized steel
Capacity	20 l
Weight	5 kg
Diameter	302 mm
Height	403 mm
Certificate	FM, UL

Attributes

- Made of high quality galvanized steel.
- Surface finishing is made with powder paint.
- Equipped with leveled bottom which secures air circulation – reduces temperature inside the container.
- Equipped with self-closing lid – prevents possible outburst of the waste.
- The lid is opened by the foot pedal.
- The lid opens at a maximum of 60° angle to avoid contact with the environment and waste.

Color variations

- Standardly RED color.

Product purpose

- Designed to collect textiles soiled from oils, thinners, solvents, adhesives, etc. substances that pose a risk of fire.
