

PRODUCT No. 4746

Plastic catching basin – 220 l

(Illustrative photograph)

Technical data

Material	Polyethylene (PE)
Capacity	220 l
Weight	12,5 kg
Length	1255 mm
Width	1255 mm
Height	182 mm

Attributes

- Made of flexible polyethylene (PE) plastic.
- Resistant to mechanical stress – distinguished by their flexibility.
- Suitable to be used in places with extreme corrosion risk.
- Basins are resistant to acids and lyes.
- Advantageous for light weight design, easy handling and large capacity.

Recommended use:

To contain leakages at shutdown machines, equipment and transport machines in interior/sheltered areas. To secure internal grid fittings in environmentally hazardous areas. To contain leakages from covered dispensing barrels and racks. To secure the storage of packagings with dangerous liquids.
