

PRODUCT No. 4715

Industrial trolley – plastic

(Illustrative photograph)

Technical data

Material	Polypropylene (PP)
Weight	18 kg
Load capacity	225 kg
Wheels (diameter)	Rubber (127 mm)
Width	1110 mm
Depth	660 mm
Height	850 mm

Attributes

- Robust design made of durable plastic Polypropylene (PP).
- Designed for high load in the industry.
- Equipped with four wheels made of thermo-plastic rubber with diameter of 127 mm.
- Trolley provides lightweight design and rounded edges.

Color variations

- Black.

Product purpose

- Designed for usage in the industry for transportation of tools and common materials.

Additions

- Never exceed determined load capacity.
