

PRODUCT No. 4714

Industrial trolley – plastic

(Illustrative photograph)

### Technical data

Material	Polypropylene (PP)
Weight	14 kg
Load capacity	225 kg
Wheels (diameter)	Rubber (127 mm)
Width	990 mm
Depth	450 mm
Height	850 mm

### Attributes

- Robust design made of durable plastic Polypropylene (PP).
- Designed for high load in the industry.
- Ergonomic handle providing optimal hand placement for better handling of the trolley.
- Integrated pockets for storing tools and other items during transport.
- Shelves with and edge for safe storage of cargo.
- Equipped with four wheels made of thermo-plastic rubber with diameter of 127 mm.
