

PRODUCT No. 4367

Cable bridge with insert – black

(Illustrative photograph)

Technical data

Bridge		Insert
Material	PVC	PVC
Weight	24,6 kg	4,8 kg
Length	800 mm	800 mm
Width	600 mm	170 mm
Height	80 mm	50 mm

Attributes

- Made by hot pressing method of softened PVC.
- Cable bridge is used to protect cables or hoses which leads over road.
- Consists of main rounded part and insert.
- Cable bridge is laid down over road without other installation operations.
- The cable bridge has a load capacity of 7 tons, assuming use of the insert (the weight of the means of transport must be calculated for the individual wheels of the entire set and the base on which the bridges are laid down must have sufficient load capacity).

Color variations

- Black.

Product purpose

- Designed to protect cables or hoses which leads over road.
