

PRODUCT No. 4371

Flooring board – „Balls“ design

(Illustration photograph)

Technical data

Material	Recycled PVC
Weight	20 kg
Encumbrance	2,5 tons per dm ²
Effective area	0,89 m ²
Footprint area	1160 x 760 mm
Width	1200 mm
Depth	800 mm
Height	22 mm

(„Balls“ design)

Attributes

- Made of recycled softened PVC (cable grit).
- Flooring board has excellent thermal insulation, anti-slip surface, chemical resistance, low flammability, easy maintenance and fast assembly/disassembly.
- Can be used on floors of warehouses, workshops and production halls, in smaller work areas, indoor exhibition areas, horses and livestock housing, protection of tartan areas on stadiums, etc.
- Flooring board can be encumbered with 2,5 tons per square decimeter (dm²).
- Easy cleaning – by sweeping and wiping.
- Equipped with all-round lock for easy joining of individual boards.
- Flooring board can be easily split and cut by cutting.
- The face side may have „Coins“ or „Balls“ pattern (types 4370 and 4371).

Product purpose

- Designed as flooring board for areas with low encumbrance requirements (2,5 t/dm²).

Additions

- Entry wedge can be ordered – type 4372 and 4373.
