

PRODUCT No. 4115

Plastic waste bin – fireproof – 26,5 l

(Illustrative photograph)

Technical data

Material	Fiberglass
Capacity	26,5 l
Weight	2,4 kg
Base	310 x 220 mm
Width	370 mm
Depth	270 mm
Height	390 mm

Attributes

- Made of highly resistant fiberglass material which does not melt during fire.
- The bin has high strength and mechanical resistance.
- There is no risk of corrosion, cracking, peeling or scratching the surface of the basket.
- Rounded corners increase strength, durability and easy cleaning of the basket.
- Suitable for environments where there is a risk of ignition.
- After the waste has been burned, the bin can be cleaned and used again.
- The bin does not change shape or color.
- Suitable for administration centers, hotels, toilets, etc.

Color variations

- Delivered in neutral beige color.

Product purpose

- Designed for collecting of mixed waste in the interior areas.

Additions

- It has fire resistance and fits into an environment where there is a risk of ignition.
