

PRODUCT No. 4132

Plastic broom STREET – without handle

(Illustrative photograph)

Technical data

Material	Polypropylene (PP)
Weight	0,7 kg

Attributes

- Bristles and bristle holders are made of Polypropylene (PP) plastic.
- Equipped with bristles of different lengths with a holder to which the handle is attached.
- Thanks to the used bristle material, the product is easy to wash and does not decay.
- Due to the material used, high resistance is guaranteed.
- Bent bristles are better adhesive to a floor.

Color variations

- Green / blue.

Product purpose

- Designed for sweeping roads and other similar surfaces.

Additions

- Handle can be ordered – type 4133.
