

PRODUCT No. 3562

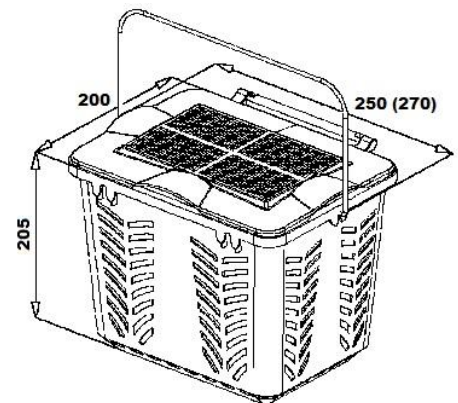

BIO container – 7 l

(Illustrative photograph)

Technical data

Material	100% Recycled polypropylene (PP)
Capacity	7 l
Width (with/without handle)	250 / 270 mm
Depth	200 mm
Height	205 mm

Attributes

- Made of 100% recycled polypropylene (PP).
- The handle is made of galvanized metal sheet.
- The lid is removable – easier cleaning.
- UV stable and resistant to chemical and biological means.
- The lid and body of the container are perforated for air circulation.
- Thanks to the perforation, the humidity and smell is reduced inside the container.
- The bio container can be hinged.
- The holder functions as an open lid lock.

Color variations

- Standardly brown color.

Product purpose

- Designed for collecting of smaller amount of biowaste.

Additions

- Suitable to combine with a Bio bag of type 3513.
