

PRODUCT No. 4257

Sorption mats – white – light 400 x 500 mm

(Illustrative photograph)

Technical data

Material	Polypropylene
Sorption capacity (Oil)	144 l
Package weight	8 kg
No. of pieces in package	200 pcs
Dimensions	400 x 500 mm

Attributes

- Made of Polypropylene (product is not classified as dangerous).
- Designed as oil sorbent.
- Sorbents are suitable for sorption oils, petrol, diesel, solvents and other petroleum-based liquids.
- Mats are perforated.

Recommended use:

Designed for sorption of oils, petrol, diesel, solvents and other petroleum-based liquids. Because of hydrophobic properties sorbents are used to selectively separate oil from water. They are used in warehouses, production or repair operations to prevent oil leakage.

Color variations

- White.

Product purpose

- Designed for disposal of oil-related accidents on water, oils, petrol, diesel, solvents and other petrol-based liquids.

Additions

- If used for particular chemical substance, consult the suitability of the product with the safety technician.
