

PRODUCT No. 4261

Barrel sorption mat – yellow (15 pcs)

(Illustrative photograph)

Technical data

Material	100% PP
Sorption capacity (Oil/water)	22 / 15,7 l
Thickness	4 mm
Package weight	1,3 kg
No. of pieces in package	15 pcs
Package dimensions	Ø560 x 60 mm
Diameter	560 mm

Attributes

- Made of 100% Polypropylene.
- Designed as chemical sorbent.
- Used for sorption of aggressive chemicals and their solutions.
- Product is not perforated.

Recommended use:

Sorption of aggressive chemicals and their solutions when pumping from 200 l barrels. High sorption capacity and chemical resistance.

Color variations

- Yellow.

Product purpose

- Designed for sorption of aggressive chemicals and their solutions when pumping from 200 l barrels.

Additions

- If used for particular chemical substance, consult the suitability of the product with the safety technician.
