

PRODUCT No. 4263

Sorption carpet extra firm, leakproof, grey – 910 mm x 30 m

(Illustrative photograph)

Technical data

Material	96-98% PP and 2-4% EMA
Sorption capacity (Oil)	81 l
Thickness	2,8 mm
Package weight	10 kg (+/- 10%)
No. of pieces in package	1 pc
Package dimensions	Ø270 x 910 mm
Dimensions	910 mm x 30 m

Attributes

- Made of 96-98% Polypropylene (PP) and 2-4% Ethyl Methacrylate (EMA).
- Designed as cleaning sorbent.
- Used for sorption of petroleum-based substances, oils and greases, emulsions, aqueous solutions, chemicals.
- The product is not perforated. It has bottom impermeable layer. Surface treatment to ensure non-fatigue.
- The product is not tested for water sorption.

Recommended use:

Sorption of petroleum substances, oils and greases, emulsions, aqueous solutions. Impermeable layer better protects environment against contamination.

Color variations

- Grey-black.

Product purpose

- Designed for sorption of petroleum substances, oils and greases, emulsions, aqueous solutions.

Additions

- If used for particular chemical substance, consult the suitability of the product with the safety technician.
