

PRODUCT No. 4580

Piston pump

(Illustration photograph)

Technical data

| | |
|---------------------------------|-----------------|
| Suction hose | 1600 mm |
| Dispense hose (/w outlet spout) | 1500 mm (DN 19) |
| Output | 25 l/min |
| Connection | G2" a M 64 x 4 |

Attributes

- Made of metal and rubber.
- Suction hose can be easily shortened.
- Dispense hose is equipped with outlet spout (DN 19).
- Robust design secures high mechanical resistance.

Product purpose

- Designed for pumping of liquids with maximal viscosity of 50 SAE, diesel, antifreeze, kerosene, fuel oil, etc.

Additions

- To pump particular liquids/acids, which are not included in product purpose part, it is needed to ask the manufacturer.
