

PRODUCT No. 4623

Anti-fatigue – Cobadot Standard 1,2 x 5 m

(Illustrative photograph)

Technical data

Material	Natural / synthetic rubber
Weight	22 kg
Color	Grey
Surface (pattern)	Circular
Operating temperatures	-30°C / +70°C
Width	1200 mm
Length	5000 mm
Height	3 mm

Attributes

- Made of mixture of natural and synthetic rubber.
- Ensures good noise and thermal insulation.
- Economically designed installation – only to be laid, it is not necessary to stick it.
- Protects workers who do not stand on hard, cold concrete floors.
- Circular design reduces the risk of slipping.
- In accordance with the anti-skid standard EN 13552 of category R10.
- In accordance with the standard of flammability DIN 54332 (B2).

Color variations

- Grey.

Product purpose

- Designed for dry operations to reduce fatigue during long standing.

Additions

- Designed for dry operations.
