

PRODUCT No. 5040

Plastic container – 120 l for batteries

(Illustration photograph)

Technical data

Material	Plastic (HDPE)
Capacity	120 l
Weight	7,5 kg (+/- 5%)
Max. weight	60 kg (+/- 5%)
Load capacity	52 kg (+/- 5%)
Rubber wheels	200 mm
Width	480 mm
Depth	540 mm
Height	945 mm
Marking	Standard, according to waste kind

Attributes

- Made of high density Polyethylene (HDPE).
- Standardly delivered with two rubber wheels – 200 mm diameter, axle is made of galvanized steel.
- In agreement with EN 840 regulation.
- Resistant to UV radiation, chemical and biological impacts or to frost.
- Smooth surfaces helps against sticking of waste on them.
- Production materials does not contain any cadmium and can be granulated again.
- The container is equipped with lid lock.

Color variations

- 5040 (Red lid, black container).

Product purpose

- Designed for collecting of smaller batteries and primary cells.

Additions

- Not suitable for storing of hot ash.
- The opening is adjusted for collection of batteries and primary cells.
