

PRODUCT No. 4527

Anti-fatigue mat – Rampmat 0,9 x 1,5 m

(Illustrative photograph)

### Technical data

Material	Rubber (SBR)
Weight	11 kg
Color	Black
Surface (thread)	Raised circular
Operating temperature	-20°C / +130°C
Width	900 mm
Length	1500 mm
Height	14 mm

### Attributes

- Made of abrasion-resistant rubber (SBR).
- Raised circular surface provides excellent anti-skid protection.
- Angled edge to reduce risk of tripping over.
- Suitable for workplaces where is no contact with oil (due to limited durability).
- R10 anti-skid category tested according to EN 13552.

### Color variations

- Black.

### Product purpose

- Designed for demanding operations to reduce fatigue due to long standing.

### Additions

- Suitable for oil-free operations only.
