

PRODUCT No. 6514

Double-casing container – 500 l

(Illustrative photograph)

Technical data

Material	Steel sheet
Material thickness	3 – 4 mm
Capacity	500 l
Surface finish	Hot-dip galvanized
Weight (approx.)	260 kg
Width	880 mm
Length	1280 mm
Height	910 mm

Attributes

- Made of hot-dip galvanized steel sheet.
- Double-casing robust, long-life design.
- To drain the liquid, it is necessary to remove the filler sink with the sieve and drain the liquid with the pump.
- Due to the double-casing design, it is possible to store a container without a catching basin.
- Both casings are sealed and screwed in together.
- The filling hole is fitted with a sieve – prevents dirt from entering the container.
- Designed for manipulation by fork-lift machinery or a crane.

Product purpose

- Designed for collectiong of hazardous liquids.
