

PRODUCT No. 5057-1

Tube container KLASIK with reinforced construction – 5,5 m³

(Illustrative photograph)

Technical data

| | |
|-------------------------------|--------------------|
| Material | Steel sheet |
| Mat. thickness (bottom/walls) | 5/3 mm |
| Capacity | 5,5 m ³ |
| Weight | 590 kg |
| Width | 1820 mm |
| Length | 3500 mm |
| Height | 1100 mm |

Attributes

- Made of steel sheet.
- Containers are welded from the inside and outside – ensuring watertightness.
- Surface finish – base + top layer of paint.
- Safety clamps on the bottom are manufactured in two options – West-European type and Czech type.
- Czech type – two lifting attachments side by side.
- West-European type – one lifting attachment.
- Primarily suitable for storage and transport of paste state wastes.

Color variations

- According to RAL sampler.

Product purpose

- Designed primarily for storage and transport of paste state wastes.

Additions

- When transporting the container, it must be secured against movement by safety clamps on the bottom.
