

PRODUCT No. 5021-6

Insert for pedal operated bin PATTY – red

(Illustrative photograph)

Technical data

Material	Polypropylene (PP)
Capacity (approx.)	25 l
Weight	1 kg
Width	260 mm
Depth	150 mm
Height	490 mm

Attributes

- Made of durable polypropylene (PP).
- Inserts are designed for 50 l PATTY bins (type 5020).
- Used to distinguish the embedded waste.
- Suitable for placing near dispense machines / refreshment stalls.

Color variations

- 5021-1 (Blue), 5021-2 (Green), 5021-4 (Yellow), 5021-6 (Red).

Product purpose

- Designed for sorting of waste in the PATTY bin – type 5020.

Additions

- The lower total capacity of the insert is adapted to the bin design and pedal mechanism.
