

PRODUCT No. 7122

Sideboard for bike stand (1 pc)

(Illustrative photograph)

Technical data

Material	Concrete
Weight	90 kg
Width	250 mm
Depth	600 mm
Height	250 mm

Attributes

- Made of washed-out concrete.
- High weight improves resistance against vandalism or stealing.
- Equipped with pre-drilled holes from both sides for attaching construction for bikes.

Product purpose

- Designed as concrete element for bike stand.

Additions

- Concrete elements and construction are ordered separately, infinite row can be assembled.
- Two concrete elements are required for one stand and required construction for 3 or 5 bikes.
