

PRODUCT No. 1132E-42

Metal galvanized container – 1100 l - Plastics

(Illustrative photograph)

Technical data

Material	Steel sheet
Capacity	1100 l
Weight (variation)	110 - 135 kg
Load capacity	440 kg
Wheels (diameter)	200 mm
Width	1370 mm
Depth	1010 mm
Height	1420 mm

Attributes

- Made of steel sheet.
- Surface finishing is made by hot-dip galvanization.
- Equipped with turnable wheels with 200 mm diameter – 2x wheels with brake.
- Containers are suitable for municipal and industrial waste.

Color variations

- Yellow lid (plastics)

Product purpose

- Designed for collection of separated waste – plastics.

Additions

- Lids can be equipped with specific openings and color for waste separation.
