(Illustrative photograph)

Technical data

Material	Steel
Weight	12 kg
Max. working width	1600 mm
Width	2030 mm
Depth	85 mm
Height	225 mm

Attributes

- The packing material holder and cutting bracket ensures easy and accurate cutting of the required packing material size.
- The cutting stands come with an universal blade knife that can be used for cutting without interchangeability.
- Applicable in packing and export centres – corrugated cardboard, wrapping paper, PE foil, bubble foil, etc.

Color variations

- Black – red.

Product purpose

- Designed for cutting of packaging materials.

Additions

- Versions of cutting stands for lengths of 750 and 1000 mm are not equipped with a handle for manipulating the knife bracket.
