

PRODUCT No. 7378

Concrete bin

(Illustrative photograph)

Technical data

Material	Gushed concrete (C25/30)
Weight (approx.)	220 kg
Diameter (outer/inner)	520 / 380 mm
Height (outer/inner)	955 / 735 mm

Attributes

- Made of reinforced gushed concrete of C25/30 class.
- Thanks to high weight the bin is resistant to mechanical damages.
- Equipped with hole for water drain.
- Bin can be equipped with galvanized steel sheet liner (type 6117-B).
- Equipped with a drain hole in the bottom part.
- The drain hole can be used for anchoring e.g. onto a chemical anchor.

Product purpose

- Designed for collection of common waste in outdoor areas – urban areas, parks, etc.

Additions

- Can be equipped with liner – type 6117-B.
- Can be equipped with a lid – type 6117-C/N and 6117-A.
