

### PRODUCT No. 3874-ESD

### Plastic EURO box with a lid – 600 x 400 x 135 mm (ESD)

(Illustrative photograph)

#### Technical data

|                           |                          |
|---------------------------|--------------------------|
| Material                  | ESD PP                   |
| Capacity                  | 24 l                     |
| Weight                    | 2,1 kg                   |
| Load capacity             | 10-12 kg                 |
| Spec. internal resistance | $10^3 < 10^{10}$ Ohm/cm* |
| Length (Inner/outer)      | 570 / 600 mm             |
| Width (Inner/outer)       | 370 / 400 mm             |
| Height (Inner/outer)      | 115 / 135 mm             |

\*Note: Please note that due to flow orientation, which depends on the processing method, the finished parts may have different electrical properties.

#### Attributes

- Made of electrically conductive polypropylene plastic (ESD-PP).
- Material is suitable for safe storing and transportation of sensitive electrical components.
- They reliably prevent electrostatic discharge and they are already conducting the actual discharge.
- Sturdy design ensures sufficient rigidity and load capacity of a box.
- Smooth internal surfaces allows easy cleaning.
- Boxes are stackable. Standard EURO format.
- Equipped with lid with two hinges and double securing on a front side against spontaneous opening.

#### Color variations

- Black (RAL 9017).

#### Product purpose

- Designed for storing and transportation of sensitive electrical components.

#### Additions

- ESD version.
