

### PRODUCT No. 7554

#### Wire stackable crate – 615 x 455 x 400 mm

(Illustrative photograph)

#### Technical data

Material	Steel
Weight	9 kg
Stacking height	370 mm
Mesh size (sides / bottom)	22 x 27 / 25 x 25 mm
Max. load capacity	300 kg
Stacking by	4 pcs
Length	615 mm
Width	455 mm
Height	400 mm

#### Attributes

- Made of steel wire of 3,15 mm diameter.
- Flexible storage system with wide application in warehouses – opening enables dispense of material while in stack.
- Equipped with dispense opening on one side and foldable handle on the other side.
- Each crossing point is arc-spot welded.
- Lower frame made of T-profile enables stacking.
- Can be stacked by 4 pieces because of stability reason.
- Surface finishing is made by hot-dip galvanization.

#### Product purpose

- Designed for storing and transportation of common material in storage areas.

#### Additions

- Delivered in version with foldable handles – type 7549, 7550, 7551.
- Delivered in version with dispense hole and handle – type 7552, 7553, 7554.
