

PRODUCT No. 3393

Anti-fatigue mat – Cobadot Nitril 1,2 x 5 m

(Illustrative photograph)

### Technical data

Material	Natural rubber / Nitrile
Weight	22 kg
Color	Grey
Surface (pattern)	Circular
Operating temperature	-30°C / +70°C
Width	1200 mm
Length	5000 mm
Height	3 mm

### Attributes

- Made of mixture of natural rubber and Nitrile rubber.
- Provides higher resistance to greases and chemicals.
- Economically designed installation – only to be laid, it is not necessary to stick it.
- Protects workers who do not stand on hard, cold concrete floors.
- Circular design reduces the risk of slipping.
- Suitable for production and representative areas, assembly lines, public areas, exhibition halls, etc.

### Color variations

- Grey.

### Product purpose

- Designed for dry operations with possible contact with oils to reduce fatigue during long standing.

### Additions

- Designed for dry environments with possible contact with oils and greases.
