

PRODUCT No. 7694

Square rainwater tank – 300 l

(Illustrative photograph)

Technical data

Material	Recycled PP
Capacity	300 l
Weight	8 kg
Width	800 mm
Depth	660 mm
Height	920 mm

Attributes

- Made of 100% recycled Polypropylene (PP).
- Simple solution for collection of rainwater from the gutter system.
- High stability due to bottom and stand construction.
- Easy mounting of accessories.
- Possibility of connection multiple tanks (interconnection kit).

Color variations

- Standardly green.

Product purpose

- Designed for rainwater collection.

Additions

- A stand can be ordered and added – type 7694-S.
- Possibility to purchase a child lock pins, which also serves to secure the lid as protection against strong wind (package contains 4 pcs).
- Drain tap included (hole into the container must be drilled).
- Instal inner rods to strengthen the tank before use.

Attributes

It is not suitable to keep any water inside the product in a winter season. The water may become ice and potentially damage the product. The product is made of plastic material and therefore has no fire protection and is therefore a flammable product. Do not store the product in the immediate vicinity of heat sources (e.g. naked fire).

Winter maintenance

The tank must be completely emptied. Disconnect the tank from the intake from downpipe. Set the tap into open position. In case of usage of downpipe filter, set it into winter mode.
