Attributes

According to the Civil Code, Act No. 262/2006 Coll., § 103 letter j), an employer is obliged to ensure the first aid provision. And so, each employer's obligation is to equip the workplace with a necessary number of first-aid boxes and to ensure their availability during all the working hours. At the moment there is not any legal regulation or another health standard in the Czech Republic as for the first-aid kit contents. The contents of the first-aid kits should be determined according to the risks arising from work activities and should be consulted with the organization contract doctor. The contents of first-aid kits have been designed with the help of rescue service experts and traumatological ward doctors and divided into individual specific workplaces according to the accident risk.

Health-care contents PRODUCTION is suitable for all workplaces and plants where employees work with or process metal, plastic or wooden material, such as workshops, production, material processing and the like. Besides the basic medical and bandage material the contents also include washout solution in case of eye contact with a dangerous substance and cooling bandages and gels to reduce burning consequences.

Product purpose

- Designed as a first-aid content in workplaces and operation – type PRODUCTION.
