

PRODUCT No. 3175-F

Ramped edge for Solid-fatigue mat - female

(Illustrative photograph)

Technical data

Material	Nitrile
Weight	1 kg
Color	Yellow
Connection type	Female
Designed for	Mat type 3174
Width	75 mm
Length	1 m

Attributes

- Designed for edging of the Solid Fatigue Step mat (type 3174).
- The ramped edge reduces the risk of tripping.
- Edge is oil resistant which makes it ideal for environments where oil spills occur.
- Each edge fits into the Fatigue-Step mat tile system.
- The yellow colour better signals the risk of tripping.
- Ramped edge allows use of wheel systems.

Color variations

- Yellow.

Product purpose

- Designed for demanding and dry operations with possible use of oil.

Additions

- Supplied in 1 m lengths for compatibility with 900 mm long tile mats after cutting the unnecessary corner.
- On request, it is possible to supply a black version or a B1 version, i.e. with fire resistance.
