

PRODUCT No. 7747

Funnel for pouring of cooking oil into a PET bottle – Gocciolina

(Illustrative photograph)

Technical data

Material	PE
Weight	0,080 kg
Dimensions	122 x 192 x 110 mm

Attributes

- Made of plastic polyethylene (PE).
- Ergonomic shape – easy and safe pouring of cold cooking oil into commonly available PET bottles.
- Removable sieve – prevents the funnel clogging and catches dirt.
- Washable in the dishwasher.

Color variations

- Funnel / sieve – orange / yellow.

Product purpose

- Designed for easy and safe pouring of cold cooking oil into commonly available PET bottles.

USE

Do not pour used kitchen oil into a sink (drainage)

1 Pour over the used kitchen oil into a PET bottle via funnel

2 Take the collected oil to your designated collection point

3 Put a properly closed PET bottle into a dedicated special bulk container
