

PRODUCT No. 6397

Exterior waste bin without column – 42 l

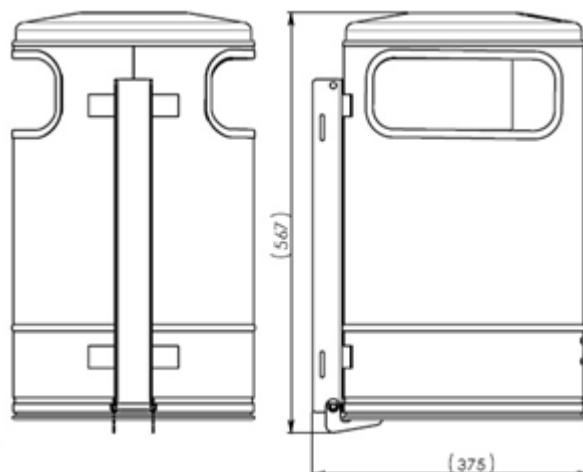

(Illustrative photograph)

Technical data

Material	Steel
Capacity	42 l
Weight	7,4 kg
Container diameter	329 mm
Depth	375 mm
Height	567 mm

Attributes

- Made of galvanized steel sheet.
- The bin is made of 0,8 mm thick steel sheet.
- Cover is made of 0,5 mm thick stainless steel.
- Hinge is made of 2 mm thick steel sheet.
- The shape and location of openings provide protection from rainwater and throwing of too big items.
- Tipping bottom allows easy emptying without manual contact with garbage.
- Lower lid opens by universal lock.
- The bin is equipped with an ashtray with a stainless-steel cover.
- Surface finishing is made by varnishing.

Color variations

- 6397-1 (Blue), 6397-2 (Green), 6397-3 (Black), 6397-6 (Red).

Product purpose

- Designed for collecting of common waste.

Additions

- The bin can be placed in the open area if the area is sheltered and at least partially protected from weather conditions.
- Attaching on the column is done using motex strips or connecting material, which is not part of delivery.
- Column can be ordered – type 6999.
