

PRODUCT No. 7784

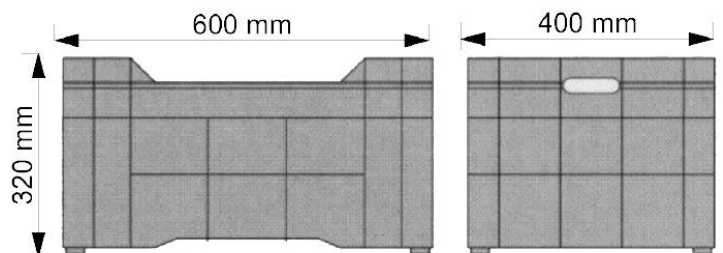

Plastic box – perforated sidewalls

(Illustrative photograph)

Technical data

Material	HDPE
Capacity	58 l (+/- 5%)
Weight	2,35 kg (+/- 5%)
Load capacity	40 kg
Stacking load capacity	400 kg
Width	600 mm
Depth	400 mm
Height	320 mm

Attributes

- Made of polyethylene with high density (HDPE).
- Plastic box with perforated sidewalls.
- Resistant to weather conditions and UV radiation.
- Resistant to bases and acids.
- Stackable, stable and equipped with handles for manual manipulation.
- Smooth inner surfaces for easy cleaning.
- Material is suitable for contact with food.

Color variations

- Grey.

Product purpose

- Designed for storing and transportation of material or food products.
