

PRODUCT No. 7963

Pump kit – House Premium

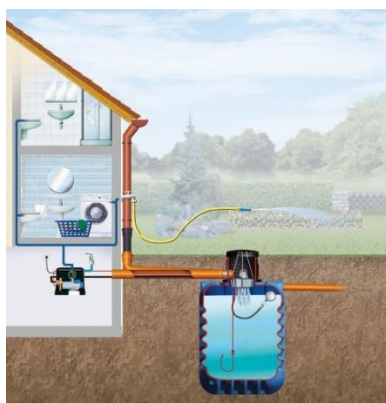

(Illustrative photograph)

Technical data

Pump on bracket:

Weight	17,5 kg
Max. pressure	3,5 bar
Max. output	3600 l/h
Engine output	0,66 kW

Attributes

- The complete House Premium kit ensures rainwater usage not only in the garden and exterior, but also indoors.
- Used in family houses (eg for flushing toilets).
- The pump is placed inside the house.
- Quiet and efficient pump with protection against dry-running.
- Suction hose of 12,5 m length, floating suction basket with fine filter.
- Supplied with a wall grommet with 3 m hose.

Product purpose

- Designed for pumping rainwater from underground tank.

Additions

- When using the House Premium kit, it is necessary to ensure filtration on the water supply to the tank.
