

### PRODUCT No. 8154

### High-capacity double housing filling station 5000 l – extension

(Illustrative photograph)

#### Technical data

Material	Polyethylene (PE)
Capacity	5000 l
Weight	201 kg
Voltage	230 V
Output	72 l/min (when connected)
Width	2400 mm
Depth	2300 mm
Height	1850 mm

#### Attributes

- Double housing construction made of polyethylene (PE).
- Delivered with a hinged lid for outdoor use.
- All equipment is positioned so that it is easy to access.
- Double housing construction secures against possible leak of liquid from inner tank.
- Four points for securing the tank to the ground to protect from wind damage.

#### Product purpose

- Designed for extension of diesel fuel storage.

#### Additions

- The extension tank must be connected to the tank with the pump to ensure proper operation.
- Extension version – hinged lid, optical indicator, filling connection for tanks, anti-overfill indicator, pressure relief vent, level indicator, suction hose with set for connection to the first tank.
