

PRODUCT No. 8880

Plastic crate for meat products E3

(Illustrative photograph)

Technical data

Material	Polyethylene (PE)
Weight	2,8 kg
Load capacity	30 kg
Length	600 mm
Width	400 mm
Height	300 mm

Attributes

- Made of linear polyethylene.
- The crate is hygienic, it does not release any unwanted odours and tastes into the foodstuff.
- Suitable for transport and storage of meat, meat products and other foodstuff.
- Complies with strict DIN 55423 standards (for meat and meat product transport chains).
- Optimized for use in automated logistics (transporters, roller conveyors).
- Water is drained outwards from the edge of the crate.

Colour variations

- Standardly red.

Product purpose

- Designed for storage and transport of meat, meat products and other foodstuff.

Additions

- It is recommended to store the crates in areas protected against the weather, especially from direct sunlight.
