

PRODUCT No. 1107H2VP

Container for collection of solid state waste – 770 l

(Illustrative photograph)

Technical data

Material	Steel sheet
Capacity	770 l
Weight	85 kg
Load capacity	310 kg
Width	1370 mm
Depth	780 mm
Height	1400 mm

Attributes

- Made of steel sheet.
- Suitable for collection of solid domestic and industrial waste.
- Low weight and optimal depth of the container facilitates handling in dense buildings and allows passage through the door of common width of 80 cm.
- Dimensions correspond to EN 840-2, surface finishing by hot-dip galvanizing according to EN ISO 1461.
- The integrated comb rail is in combination with a tilting pin.

Product purpose

- Designed for collection of solid domestic and industrial waste.

Additions

- On order: lid lock, central brake, foot opening, plastic embossing of the logo or text, oil-tight design, adjustment for handling by the forklift, etc.
