

PRODUCT No. 8191

Modular bench

(Illustrative photograph)

Technical data

Material	Steel / recycled plastic
Weight	55 kg
Length (seat/total)	1500 / 1730 mm
Depth	447 mm
Height (seat/total)	447 / 667 mm

Attributes

- Benches of the Modular series are designed with regard to aesthetics and modularity in the form of possible modifications and creation of sets.
- Sets can consist of benches; waste bins and bike stand so as not to disturb the overall aesthetics.
- On customer's request it is possible to modify both the surface finishing and the used profiles for seat section.
- As standard, the bench is made of bent steel sheet and profiles of recycled plastic.
- The construction is standardly obtained with hot-dip galvanizing and subsequently with high-quality varnish.
- The seat part consists of profiles made of recycled plastic with a cross section of 78 x 21 mm.
- The bench can be anchored to the base (holes of 12 mm diameter).

Colour variations

- Black.

Product purpose

- Designed as a part of urban equipment for resting in public areas.
