Attributes

- Stands of the Modular series are designed with regard to aesthetics and modularity in the form of possible modifications and creation of sets.
- Sets can consist of benches; waste bins and bike stand so as not to disturb the overall aesthetics.
- On customer's request it is possible to modify the surface finishing.
- As standard, the stand is made of bent steel sheet.
- The construction is standardly obtained with hot-dip galvanizing and subsequently with high-quality varnish.
- The stand can be anchored to the base (holes of 12 mm diameter).

Colour variations

- Black.

Product purpose

- Designed as a bike stand into public areas.
