

PRODUCT No. 8309

Mobile filling station for diesel with CAS battery – 440 l

(Illustrative photograph)

### Technical data

Material	Polyethylene (PE)
Weight	35 kg
Capacity	440 l
Voltage	18 V
Output	30 l/min
Width	1180 mm
Depth	800 mm
Height	710 mm

### Attributes

- Single-walled polyethylene container with a lid.
- Integral dispensing nozzle holder.
- Integral filling nozzle.
- Integrated vent with pressure relief.
- Integral forklift pockets and handles.
- Integral recesses for ratchet straps during transport.
- Equipped with electric self-priming pump 18 V 30 l/min.
- The pump is powered by a battery (CAS AKU 4 Ah + charger ASC55).
- Equipped with 4 meters long delivery hose DN19 with automatic nozzle.
- Approved for transport for immediate consumption according to ADR 1.1.3.1c).

### Color variations

- Standardly in grey color / orange lid.

### Product purpose

- Designed for diesel fuel delivery.

### Additions

- An electric flow meter can be ordered.
