

Metal varnished conical barrel 220 l with UN – removable lid
TYPE: 8316

Illustrational photograph

TECHNICAL DATA

Material	Steel
Material thickness	0,7 mm
Capacity	220 l
Weight	12 kg ($\pm 4 \%$)
Load capacity	220 kg
Upper diameter (inner/outer)	560 / 576 mm (± 2 mm)
Bottom dia. (inner/outer)	520 / 831 mm (± 2 mm)
Height	963 mm (± 5 mm)
UN	YES

ATTRIBUTES

- Made of steel material.
- The housing is joined by electric welding.
- Welds are provided with powder thermoplastic paint.
- The housing and bottom are joined by a double hook up.
- Equipped with a removable lid with rubber fitting and a galvanized steel clamping ring with a lever mechanism.
- Conical shape ensures easy stacking.
- External surface finishing carried out by varnishing.
- Barrels can be filled max. 220 kg and can be stacked above the one in two layers (put pallet between the drums in case of stacking).
- Internal surface finishing carried out by epoxyphenol coating.
- The barrels are certified for storage and transport of solid-state dangerous substances.

COLOUR VARIATIONS

Body (outer/inner), lid – Blue / pale yellow, white.

PRODUCT PURPOSE

Product is designed for storage and transportation of solid-state dangerous substances.
