

PRODUCT No. 8262

Flowmeter for barrel pumping sets

(Illustrative photograph)

Technical data

Connection	1" BSP
Weight	0,4 kg
Flow	10-55 l/min
Temperature range	-10 to +60 °C
Max. pressure	2 bar
Destruction pressure	4 bar
Accuracy	1 %
Calibratable	YES

Attributes

- Basic flowmeter for diesel measurement.
- Flowmeter for pumping sets of type 8259, 8260 and 8261.

Product purpose

- Designed for flow measurement of pumping sets 8259, 8260 and 8261.
