

Heel grounder
TYPE: 8444-A

Illustrational photograph

TECHNICAL DATA

Material	Plastic parts made of antistatic PA material
Weight	0,05 kg
Environment	Dry indoor environments
Connection	10 mm

ATTRIBUTES

- Used to ground the operator when used on suitable antistatic flooring.
- Hardwearing, long-lasting rubber construction suits all shoe sizes and shapes.
- Fully adjustable, lightweight design.
- Conductive tab ensures reliable and effective skin contact.
- Two grounders recommended at all times for complete ESD safety.
- Fitted with a 1 meg Ω resistor for operator safety.

PRODUCT PURPOSE

Product is designed to ground operator when used on suitable antistatic flooring.
