

PRODUCT No. 4827

Plastic lid – red

(Illustrative photograph)

Technical data

Material	Polypropylene (PP)
Designed for	Bin – type 4822
Length	380 mm
Depth	320 mm
Height (height of grooves)	190 (40) mm
Flap dimensions (W x H)	305 x 170 mm

Attributes

- Made of polypropylene (PP) plastic.
- The height to inner grooves after placing on the bin is 40 mm – after the lid is attached to the bin 4822, the total height of the bin is 650 mm.
- Practice-proof design with swinging lid (possibility of locking the opened lid).
- Freely removable lid allows the use of polyethylene bags.
- A wide selection of colors for the cap allows easy sorting of the waste.
- Bins and lids need to be ordered separately.

Color variations

- 4823 (Blue), 4824 (Green), 4825 (Yellow), 4826 (Brown), 4827 (Red).

Product purpose

- Designed as a swing lid for bin type 4822.

Additions

- The lids and bins need to be ordered separately.
